

Designing Atmosphere
2010

Designing atmosphere for over 60 years

Welcome to Duni Selection Guide 2010. This year's assortment of table setting and design concepts is the reflection of our dedication to "designing atmosphere". This was and remains to be our main objective when we founded Duni over 60 years ago.

Our first major innovation was the disposable wax cup in 1949. Since then, our product ranges have expanded and evolved in tune with the trends of the time and, of course, people's tastes. Nevertheless, we have remained true to our roots by always offering what best defines our style: timeless elegance and indisputable taste. The table should always be the main focus of every eating and drinking experience, so designing the perfect atmosphere around it is what we take most seriously. This is our passion.

Duni's commitment to the environment

Designing atmosphere is our passion – but not our only passion. We are also thoroughly committed to protecting the environment. 70% of our products are made from renewable materials such as wood from sustainable forests in Northern Europe. We continuously implement improvements at our plants, where we have been able to reduce water, spill and energy consumption significantly. These improvements have made us certain that it really is possible to reduce the environmental impact. Therefore we have made it our goal to reduce CO₂ emissions in our operations by 25% and in transports by 15%. We also plan to lower our energy consumption by 15%. In addition, we regularly evaluate new

environmentally friendly materials. An important part of Duni's environmental strategy is responsible forestry. In 2009, Duni got an FSC (Forest Stewardship Council) certification and can provide products that carry the FSC Mixed Sources label. The FSC assures that forests are managed in a way that meets the social, economic and ecological needs of present and future generations. For Duni, being a responsible company does not stop at protecting the environment. We must also be accountable for how our operations affect people. Therefore, Duni sites and our suppliers must comply with the requirements in our Code of Conduct, which defines the basic right of employees based on ILO (International Labour Organization) conventions. For more information on Duni Environmental and Social Responsibility, please visit: www.duni.com/responsibility.

Duni is represented in over 40 markets and over 2000 employees who are dedicated to designing atmosphere. We hope this Selection Guide will inspire you to do the same for your own customers!

Your Duni Team.

So what's new?

At Duni, we never stop improving our assortment to keep up with the ever-changing needs of restaurants, hotels and caterers. Every new offer is designed to add a new dimension of design and practicality to your operation and make the eating experience truly unique while providing you with optimum convenience. We hope you enjoy these new ideas.

Elegance Lily

Celebrate with the elegant shimmer.

Exclusive napkins are always the icing on the cake of a perfect feast or banquet. With Duni Elegance® Lily you can have the benefits of linen napkins without the long list of drawbacks, such as laundering, starching ironing and mending. These new napkins are made of a revolutionary material with elegant embossing that can easily be mistaken for fabric – and they even have that beautiful linen shimmer. Duni®Elegance Lily combines the practicality of premium Duni napkins with the sophistication, look and feel of linen.

Meeting today's challenges with tomorrow's solutions.

Introducing Duni ecoecho™

To act and meet the challenges of today, we must use the solutions of tomorrow. And this means finding a variety of solutions. This is what the Duni ecoecho™ range is all about.

In our Duni ecoecho™ range, we use the best materials available with the goal of limiting the use of non-renewable resources. So we utilise innovative materials, which use a substantially smaller amount of fossil fuel resources to reduce our CO₂ footprint: materials that are natural, recycled, renewable or compostable. Plastic products are made from plants instead of petroleum.

A 3 in 1 solution for tablesetting

A Duni exclusive innovation: Duni Duetto™ is a 30 x 45 cm high quality paper placemat including a napkin and an insert for your cutlery. Now you can set your table in one motion, because your placemat, napkin and cutlery are all in one piece. Duni Duetto™ is very original and available in many colours, as well as with an Airlaid or a tissue napkin. You can also personalise it to suit your taste or your establishment's corporate identity.

A new pattern for the Sensia® range

Discover a new pattern in the Sensia® collection: a refined style with trendy and original stripes to create a simple but sophisticated atmosphere. Sensia® allows you to have both premium quality and stylish convenience. The different colours available fit any type of establishment and the 3-D broderie effect puts the finishing touch on any occasion.

Show off your skill with Amuse-bouche

Artistic, single bite creations

The French term Amuse-bouche can literally be translated as "mouth amuser," and this is what the new range is all about. Duni Amuse-bouche® is ideal for all kinds of servings. With a truly eye-catching design and superb transparency, it is the natural choice for high-end caterers who want to serve their delicacies as artistic, single bite creations. Now with new shapes and sizes.

Our style groups

Style is the perfect reflection of the times. That's why Duni Designers begin work on each collection well in advance, looking for inspiration at trade fairs, doing store-checks and in magazines. Our Head of Design, Karin Nyhuis says, "It's essentially a matter of keeping your eyes open." So, based on that input, we came up with 4 clear stylistic directions for 2010.

Karin Nyhuis, Duni Head of Design

Facets of purism

Clean lines. Clear natural structures. Organic whites, greys, blacks and wood tones. Discreet prints, where nature is the greatest source of inspiration. A clean feeling with airiness and flexibility.

Cross-Culture

This is a journey with an extravagant collage of ethnic patterns and craftsmanship that connects folklore from all over the world. A collection that offers a colour palette ranging from warm ochre, orange and deep red deep browns to olive green, green sulphur, brick, warm red, deep magenta and saddle brown.

Daydreamer

This range is definitely playful and feminine, with its animal drawings, twigs, lace and graphic elements. Tone-in-tone is also prominent here. The colours are natural, warm and soothing. It is decorative, sensual, subtle, emotional and romantic. The antique, vintage look of prints definitely comes out in this range. This is straightforward elegance – for the daydreamer in you.

Modern Living

Our Modern Living Collection is relaxed and uncomplicated: charming prints with multicolour stripes, flowers and familiar motifs – with a great range of fascinating colours like heavenly blue, radiant orange, fresh pink, sunny yellow and spring green.

Find your atmosphere Facets of purism

The keywords here are clean, clear and organic. Nature is the greatest source of inspiration – with lots of room to breathe.

Tablecovers

The Manhattan Grey Tête-à-Tête tablecover and matching Duniletto™ express the purism of this collection perfectly.

We recommend

For this style, a pure white vase with a simple green plant, like clover.

Not in the Duni range.

Duniletto™

Duniletto™ – another smart Duni napkin concept. It's a napkin and cutlery bag in one. Duniletto™ saves time when setting the table and greatly enhances the atmosphere. It matches the Manhattan Grey tablecover perfectly, too.

Candle Glasses Ronda

Small things can make a big difference. The Candle Glasses Ronda are, once again, the perfect match.

Unicolours

Black, aubergine, white and granite grey.

Find your atmosphere Cross-Culture

This is extravagant collage of ethnic patterns and craftsmanship connecting folklore from all over the world. Earthy colours dominate here.

Napkin foldings
The right folding for the right occasion.
Featured here, the Turned Fan fold.

We recommend

Delicate orchids for an exclusive ethnic atmosphere, there's nothing more romantic.

Not in the Duni range.

Unicolours

Champagne, bordeaux, granite grey and terracotta.

Marbella Candles

Uniquely shaped and available in four fresh summer colours. These through-coloured candles come in one size and packs of six.

We recommend

Adorning your table with an earthy candleholder like this one. Perfect with a Marbella Candle.

Not in the Duni range.

Find your atmosphere Daydreamer

This range is definitely playful and feminine, with its animal drawings, twigs, lace and graphic elements. Tone-in-tones, natural, playful and feminine. These colours are warm and soothing. This is straightforward elegance – for the daydreamer in you.

Unicolours

Champagne, avocado, granite grey and red.

Napkin foldings

The right folding for the right occasion.
Featured here, the Plaisir fold.

Flat Top Candles

These pressed pillar candles are the perfect choice for sophisticated table arrangements. They have elegant form and excellent burning properties. Available in two sizes and 10 colours.

We recommend

Roses fit the occasion – especially pink roses in a nice pattern vase.

Not in the Duni range.

Tablecovers

The Flower Damast tablecover is great a basis for all the other Daydreamer table elements. Very attractive and very easy to use.

Find your atmosphere Modern Living

Our Modern Living Collection is relaxed and uncomplicated: fascinating prints with multicolour stripes, flowers and familiar motifs – with a great range of fascinating colours.

Candle Glass Sevilla

The Sevilla is a practicable, romantic candle and glass in one. The perfect touch for your table. Available in four colours.

Napkin foldings

The right folding for the right occasion. Featured here, the Mexico fold.

Unicolours

Palm green, antique pink, café, azur and orange.

Tête-à-Tête

Sit facing your interlocutor in the exquisite Royal Garden atmosphere.

We recommend

A rectangular glass bowl with a Duni Flat Top Candle with leaves and flowers of your choice. Be creative!

Bowl not in the Duni range.

Responsible forestry: Set the table with FSC-certified products

An important part of Duni's environmental strategy is relating to responsible forestry. In 2009, Duni became an FSC (Forest Stewardship Council) Mixed Sources certified company.

The FSC is an independent, non-governmental, not for profit organization established to promote the responsible management of the world's forests. FSC certified forests are managed in a way that meets the social, economic and ecological needs of present and future generations. The FSC program minimizes the risk of:

- illegally harvested wood
- wood harvested in violation of traditional or civil rights
- wood harvested from forests in which high conservation values are threatened by management activities
- wood harvested from areas being converted from forests and other wooded eco-systems to plantations or non-forest uses
- wood from forests in which genetically modified trees are planted

Please keep an eye out for products with the "FSC" label in this year's catalogue.

For more detailed information on the FSC, please visit www.fsc.org. And to find out more about Duni and the environment, please visit www.duni.com/responsibility

Napkins

Napkins are probably the one of the most striking elements you can put on a table for designing atmosphere. And Duni has napkins for any occasion – from an informal breakfast to a festive dinner – in a large variety of qualities, as well. The exclusive tones follow the latest trends and match other Duni collections. With so many exciting combinations, your guests will want to come back again and again.

Elegance Napkins

These new napkins are made of a revolutionary material with elegant embossing that can easily be mistaken for fabric – and with 140g, they even have that beautiful look and feel of real linen.

Page 40–41

Dunilin® Napkins

Dunilin® has always been about quality. Now we offer them in a new, convenient size: 32 x 32 cm. Dunilin® combines 70g strength with high absorbency. The embossed texture looks and feels like real linen. Ideal for folding.

Page 42–46

Airlaid Napkins

55g and wonderfully soft to the touch. Airlaid material folds just like textile napkins.

Page 49

Classic Napkins

The Classic Napkins are made of premium 4-ply tissue with a distinctive linen look.

Dunilin®, for a touch of class

If you're going to put on a party, then do it right – with Dunilin®. This is our premium napkin for dinners and banquets. On the outside, Dunilin® linen-look napkins are extremely decorative. On the inside, they're wonderfully fleecy and pleasant to use. Dunilin® napkins are manufactured without water using the Airlaid process, which means they are very environmentally friendly to produce. They are now available in new sizes, brilliant uni colours and in many seasonal and year-round designs, as well.

Tablecovers

To create an excellent atmosphere for your guests' eating experience, you must choose the right tablecover. Regardless of where an eating and drinking event takes place, the way you cover your tables will make all the difference.

Sensia®
The new Duni Sensia® Collection allows you to have both premium quality and stylish convenience.. Sensia®'s raised embroidery relief creates a premium, three-dimensional effect. And the weight of the material means it drapes elegantly over your table's surface. Sensia® allows you to have both premium quality and stylish convenience.
Page 71

Dunicel®
Dunicel® is a unique tissue-based material. Its heavy weight and likeness to linen makes it ideal for covering all types of tables. Banquet Reels **Page 62-63, 65**

Candles

Nothing compares to the atmosphere created by the warm glow and calming effect of candles on a table. And anyone in the restaurant, bar or catering business knows that good atmosphere is practically everything. Duni offers a whole range of candle types and qualities along with perfectly matching accessories such as candleholders.

Antique Candles

Our wide selection of colours will give you the possibility to create whatever kind of table-setting or concept you like.

Outdoor Candles

Our products for outdoor use are simple and intuitive. They are easy to use and are always create that "appreciated welcome feeling".
Page 93

Quality Mark of the European Candle Association

- RAL gives Duni candles the highest possible marks in quality and measurable superior burning properties
- The Duni Candles producers – who are licensees – must guarantee that they do not use contaminated raw materials or health hazardous candle colours or varnish in the production
- The diameter and burning time of the candles are guaranteed and maintained. The shape, colour and size of the candle are consistent and reliable
- In addition Duni has also implemented a unique Candle Quality Process. Duni's prime ambition is to prevent any non approved products reaching our customers

Candle School

Our candles make the difference between a nicely decorated table and one that glows with warmth and draws people to it like a magnet. With so many colours to choose from, there is no end to creating an unforgettable atmosphere for your guests. The real fun starts when you start to mix and match the fascinating candle colours and candle glasses with other table elements. So be creative and start designing your extraordinary atmosphere – with Duni candles.

How to handle your candle

Candles are ideal creators of atmosphere, but they also demand respect. So please have a look at our symbols to learn the basics on how to “handle a candle”.

Keep a safe distance from flammable materials

Always use a candleholder or plate.

The distance between burning candles should be 10 cm.

Never place candles in a draught.

Make sure to trim the wick.

Don't forget to cut the rim after it's burnt down a ways.

Eating & Drinking

This year's Eating & Drinking range includes high quality one-way and reusable products. As always, functionality and convenience play the main role.

Duni's Eating & Drinking range has products appropriate for a wide array of situations and venues; from elegant dining to crowded concert halls. Choose from a wide range of plates, cutlery, glasses and cups. Depending on your requirement, you can select products that are crush proof, insulating, shatterproof, dishwasher safe and microwavable.

Duni ecoecho™ range

In the Duni ecoecho™ range, the best materials available are used with the goal of limiting the use of non-renewable resources.

What quality do you need for the occasion?

As always, Duni has a large variety of choices of products to make your operation run smoothly and efficiently. Depending on the event, you will need different levels of quality and different properties for different occasions. So please become familiar with our labelling system depicted on these pages.

Quality

When you choose Duni, you are choosing high quality products. To make it easier for you to decide what quality best meets your needs, we have placed our products into 3 quality categories using the star system (see below). So look for the quality level tag to guide you through the assortment.

3 Stars

When only the best will do. Durable and beautiful.

2 Stars

The fine balance between good looks and good value for money.

1 Star

The big winner when it comes to large events and price is an important factor.

Polystyrene (PS) -4°C to +80°C

Duni's most frequently used plastic. This clear or coloured stiff plastic has a flawless finish that makes it the number one choice for food and drink presentation.

Expandable polystyrene (EPS) -20°C to +80°C

EPS is essentially air-filled polystyrene for additional lightness. It's a white, soft plastic with insulation properties making it ideal for more low-price outlets serving hot and cold drinks.

Polypropylene (PP) -20°C to +125°C

Dimmed, soft but robust plastic ideal for events such as festivals and concerts. Its non-cracking durability also means it is less hazardous if discarded in a crowd.

Crystallized Polylactid acid (CPLA) 0°C to +80°C

Compostable bio polymer made of natural and renewable resources. Unlike many other biopolymers, it is heat resistant up to 80 degrees.

Polylactic acid (PLA) 0°C to +40°C

Biodegradable material made from cornstarch that is remarkably similar to polystyrene. Ideal for any outlet wanting to profile itself as environmentally conscious.

Polycarbonate (PC) -30°C to +120°C

Shatter proof and dish washable up to 2500 times, Polycarbonate is Duni's hardest plastic. It's ideal for environments where broken glass is normally a hazard, e.g. pool and spa areas, beachfront bars etc. And it will outlive most glasses making it economical too.

Polybutylene succinate (PBS) 0°C to +90°C

One of the most advanced Biopolymers. It has superior barrier and properties like normal plastics, but it is compostable.

Our symbols

These symbols will provide you with an instant idea as to the products' practical benefits.

Product can be squeezed without breaking.

Product will not shatter and is safe to use in any environment.

Product can be heated in a microwave oven.

Product provides excellent insulation; keeping drinks hot or cold longer.

Product can be safely washed in a dishwasher.

Duni ecoecho™ range: Meeting today's challenges with tomorrow's solutions

The huge challenges the world is currently facing with climate change and air, land and water pollution are not problems of some distant future, but they are already here today and must be dealt with now. Natural resources are being used up more quickly than they can be replaced so there's simply no more waiting around for answers. Therefore, to meet today's challenges, we must use the solutions of tomorrow: a variety of solutions. This is what Duni ecoecho™ range is all about.

Reducing our CO₂ footprint

In our Duni ecoecho™ range, we use the best materials available with the goal of limiting the use of non-renewable resources. So we utilise innovative materials, which use a substantially smaller amount of fossil fuel resources in order to reduce our CO₂ footprint: materials that are natural, recycled, renewable or compostable with lower greenhouse gas emissions and less fossil fuel. And our plastic products are made from plant derivatives instead of petroleum.

It's too late to simply react – we must act

Even today, 70 % of the total Duni range is produced from renewable materials. However, this share can be increased even further. At Duni, taking responsibility for what we produce and how we produce is not a fashion statement, but a sign of our conviction. We have set ambitious goals for reduction of the environmental impact in our environmental strategy called "Our Green Challenge". Our goal is to reduce CO₂ emissions by 25%. Year by year, we plan to systematically introduce more and more products that will limit the use of non-renewable resources. We are presently at a point in history where it's simply too late to just react – we must act, so join us in our Duni ecoecho™ journey to help reduce the strain on our planet – the only one we have.

These Duni cups are fully compostable.

To act and meet the challenges of today, we must use the solutions of tomorrow. And this means finding a variety of solutions. This is what the Duni ecoecho™ range is all about.

Tomorrow in mind: Fibre Plates

The Duni Fibre plates are made of natural and renewable resources: surplus fibres of sugar cane grown to produce sugar. Unlike many of our competitors' fibre plates, the Duni plates are unbleached: reducing the environmental impact even further.

Fibre Plates

-20°C to +120°C

- 1 157179 Plate oval, Ø 22 cm (10 x 50)

Sleek Cold Drink Cups made of PLA

The PLA cold drink cups are of the same great quality and looks as standard plastic cups. They are a good alternative to normal plastics for cold drinks such as beer and soft drinks. These cups are compostable and made of 100% natural and renewable materials. To round off the range, the Cold Drink Cups have flat and dome lids that are compostable, as well.

Trendy, compostable Hot Drink Cups

These compostable Hot Drink Cups can be used just like traditional coffee cups: for any kind of hot content, and have an improved barrier, which is much less likely to leak. With this year's range, we are also offering the bio cups with triple walls – that are 100% compostable – and have an extreme heat barrier, which makes them pleasant to hold even if the content is boiling. The compostable Hot Drink Cups have fitting CPLA lids that are also heat resistant and compostable.

Hot Drink Cups **NEW**
