Designing atmosphere for any occasion

Welcome to Duni Retail 2010. This exciting assortment of table setting concepts is the true reflection of our goal to bring you the very best product and design concepts for any type of eating and drinking occasion. And this has been our main objective from the very beginning when we founded Duni over 60 years ago.

Duni produced its first disposable wax cup in 1949 and has never looked back. Since then, our product ranges have expanded and evolved in tune with the trends of the time and, of course, our customers' tastes. Nevertheless, we have remained true to our roots by always offering what best defines our style: timeless elegance and indisputable taste. The table should be the pride and joy and main focus of every eating and drinking experience, so designing the perfect atmosphere around it is what we take most seriously. This is our passion.

Committed to the environment

The table is our passion – but not our only passion. We are also thoroughly committed to protecting the environment. 70% of our products are made from renewable materials such as wood from sustainable forests in Northern Europe. We continuously implement improvements at our plants, where we have been able to reduce water, spill and energy consumption significantly – our goal is to reduce CO₂ emissions in operations by 25%. In addition, we regularly evaluate new environmentally friendly materials. An important part of Duni's environmental strategy is responsible forestry. In 2009, Duni got an FSC (Forest Stewardship Council) certification and can provide products that carry the FSC Mixed Sources label. The FSC assures that

forests are managed in a way that meets the social, economic and ecological needs of present and future generations. For Duni, being a responsible company does not stop at protecting the environment. We must also be accountable for how our operations affect people. Therefore, Duni sites and our suppliers must comply with the requirements in our Code of Conduct, which defines the basic rights of employees based on ILO (International Labour Organization) conventions. For more information on Duni Environmental and Social Responsibility, please visit: www.duni.com/responsibility.

We hope you enjoy our Duni Retail Range 2010, because we really enjoyed making it!

Your Duni Team.

The Candle Pompeii ambience

The Pompeii is another one of our innovations that provides a setting the table with utmost in elegance. The outer layer of the candle displays a beautiful pattern that results from the contrast of matt and glossy surfaces. If you like opulent style, you'll love our new Candle Pompeii.

Show off with Amuse-bouche®

Artistic, single bite creations

The French term Amuse-bouche can literally be translated as "mouth amuser," and this is what the new range is all about. Amuse-bouche® is ideal for all kinds of servings. Now you can show off your skills like a top chef by serving your appetizers in delectable bite-sized pieces – the ideal gateway to Nouvelle Cuisine.

A full-body photograph of Karin Nyhuis, the Head of Design at Duni. She is a woman with dark hair and glasses, smiling at the camera. She is wearing a black, short-sleeved, draped top over a black skirt, paired with blue jeans and black shoes. Her right arm is raised, and she is wearing a black watch on her left wrist. The background is a soft-focus, multi-colored wall with horizontal bands of light blue, yellow, and pink.

Our style groups

Style is the perfect reflection of the times. Duni designers begin work on each collection years in advance, looking for inspiration at trade fairs and in magazines or doing store-checks. Our Head of Design, Karin Nyhuis says, "It's essentially a matter of keeping your eyes open." So for 2010, we established 5 stylistic directions.

Karin Nyhuis, Duni Head of Design

Facets of purism

Clean lines. Clear natural structures. Organic whites, greys, blacks and wood tones. Discreet prints, where nature is the greatest source of inspiration. A clean feeling with airiness and flexibility.

Cross-Culture

Take a journey with this extravagant collage of ethnic patterns and craftsmanship that connects folklore from all over the world. This collection offers a colour palette ranging from warm ochre, orange and deep red, deep browns to olive green, green sulphur, brick, warm red, deep magenta and saddle brown.

Daydreamer

This range is definitely playful and feminine, with its animal drawings, twigs, lace and graphic elements. Tone-in-tone is also prominent here. The colours are natural, warm and soothing. It is decorative, sensual, subtle, emotional and romantic. The antique, vintage look of prints definitely comes out in this range. This is straightforward elegance – for the day-dreamer in you.

Modern Living

Your home is your paradise and our Modern Living Collection is as relaxed and uncomplicated as you are: fascinating prints with multicolour stripes, flowers and familiar motifs – with a great range of fascinating colours like heavenly blue, radiant orange, fresh pink, sunny yellow and spring green.

Fun & Energy

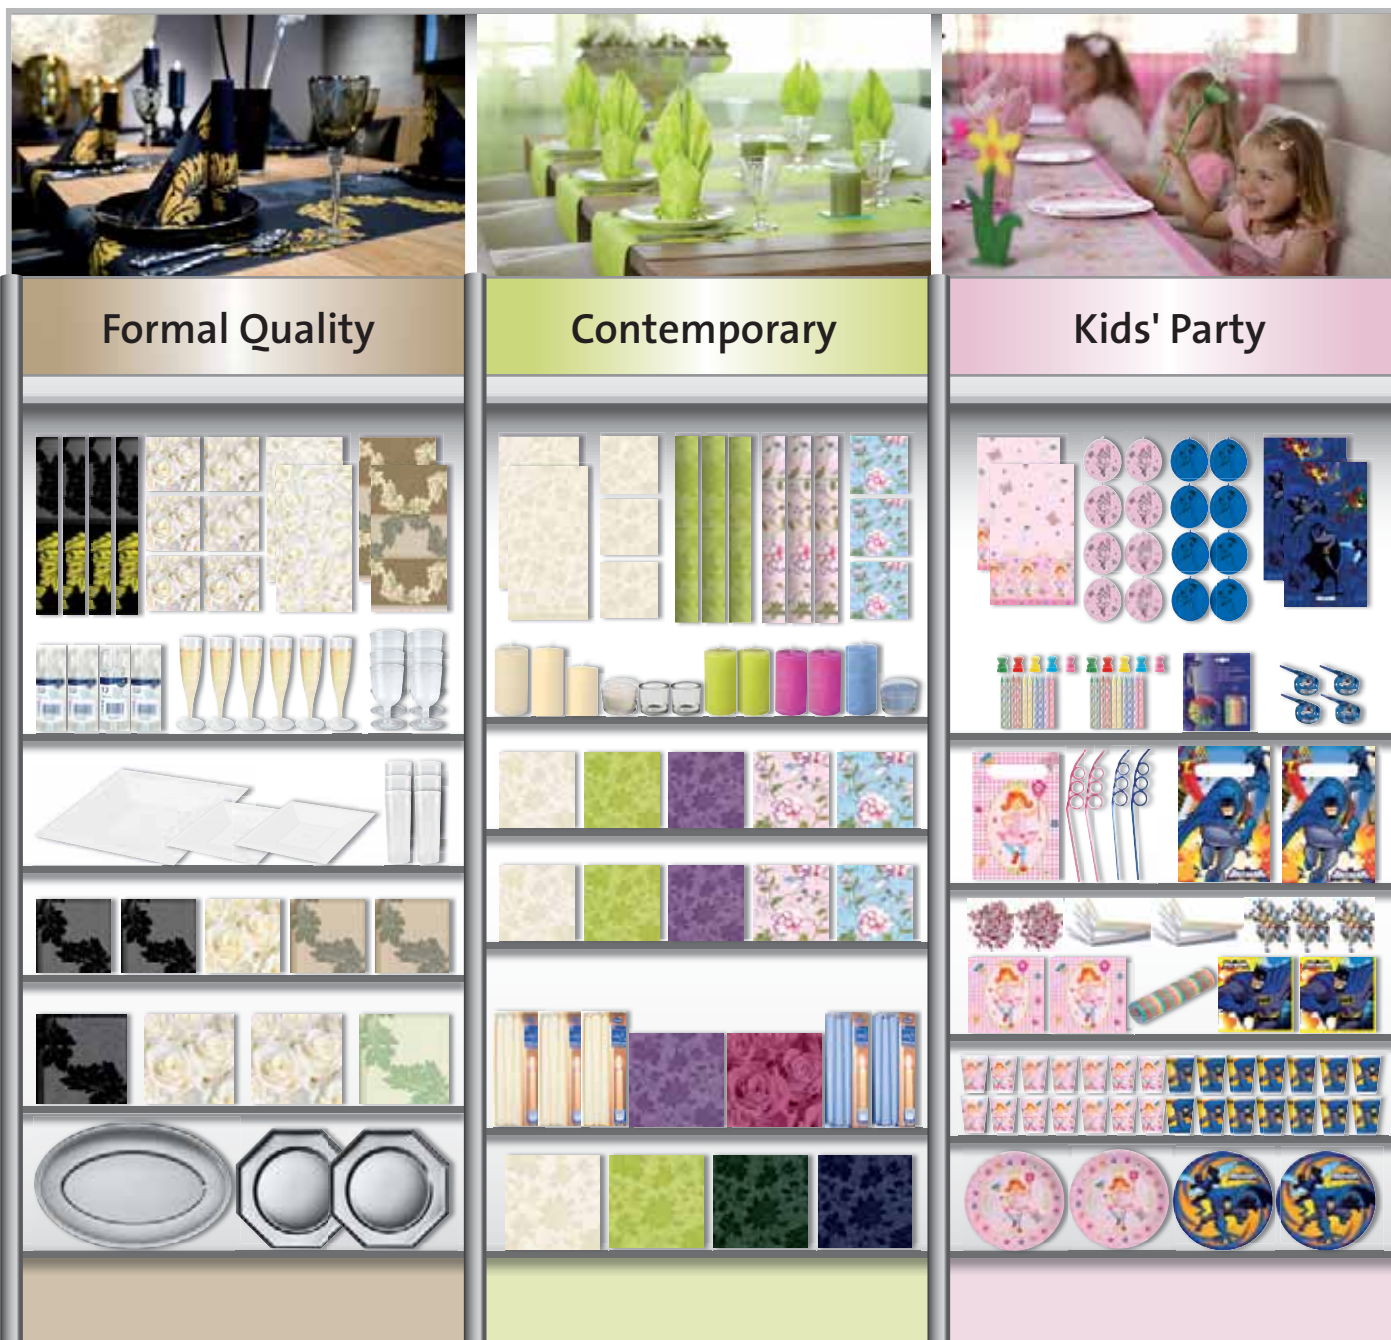

Spontaneous and full of life. You love surprises and you're open to new things. Your world is full of vibrant, fresh colours like bright red, orange, bright yellow, lime, grass green, deep turquoise and electric blue. Joy of life is a kaleidoscope of wide-awake colour in this range!

What shoppers and consumers want

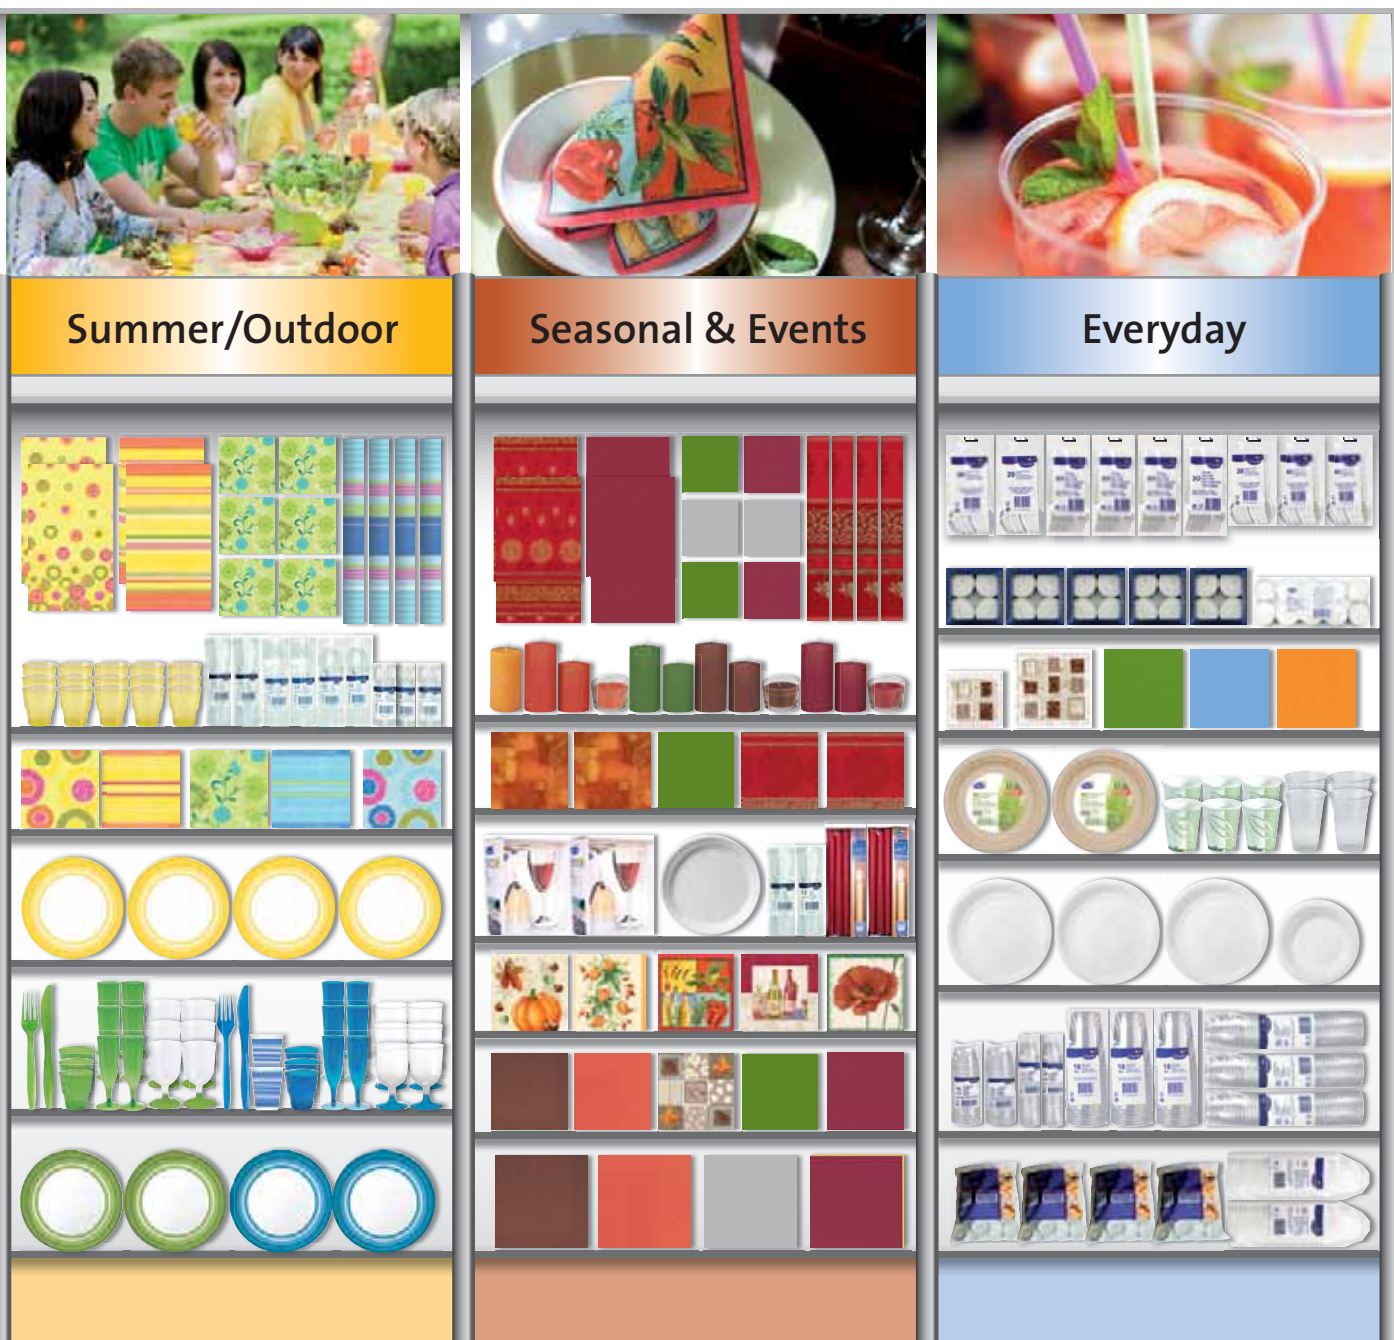

2 out of 4 shoppers just browse shelves in shops, which means category opportunity goes far beyond product and price: shoppers simply are not inspired inside of the shop. So to find out more about our customers' needs, we conducted some very thorough market research. After asking 6000

shoppers in Europe and accumulating 1830 hours of data, we found out that people mainly buy things for certain occasions, want matching colours and designs and also desire convenient placement of concepts. They say that the following 6 occasions are consistent with their needs:

So this is our answer:

- We develop concepts and solutions, not single products
- We display products according to occasion
- We work extensively with category management
- We draw up customer-specific planograms

Formal Quality

The Formal Quality group is characterized by products for the most formal occasions that look sophisticated and real to both shoppers and their guests. Products should be both functional and decorative for the planned occasion. This is the group where the look is one of the most important aspects, and shoppers are willing to spend more time browsing for the perfect concept.

When it comes to this product range, themes are everything. That's why matching products and concepts need to be placed together. Shoppers spend time looking for the right products for their occasion. Placing products at eye level would aid shoppers in their search. However, since children can also be involved in the decision-making process, it is important that products are not placed too high up where they cannot see them.

Seasonal & Events

Shoppers say they are the busiest during the festive season, and the majority would welcome a dedicated section that enables them to browse a selection of themed products. They do not want to spend too much time in the area and would like to be able to pick up products with minimal effort – so products need to be organized by occasion, colour and design.

Everyday

Shoppers assume everyday products are the lowest-priced disposable tableware goods and therefore expect to find them in the lowest shelves in the category. Although products for everyday use are the least likely to be purchased as a part of a matching set of products, it's still important that products are grouped by colour. These products are also very convenient and easy-to-use.

Responsible forestry: Set the table with FSC-certified products

An important part of Duni's environmental strategy is relating to responsible forestry. In 2009, Duni became an FSC (Forest Stewardship Council) Mixed Sources certified company for our tissue based products.

The FSC is an independent, non-governmental, not for profit organization established to promote the responsible management of the world's forests. FSC-certified forests are managed in a way that meets the social, economic and ecological needs of present and future generations. The FSC program minimizes the risk of:

- illegally harvested wood
- wood harvested in violation of traditional or civil rights
- wood harvested from forests in which high conservation values are threatened by management activities
- wood harvested from areas being converted from forests and other wooded eco-systems to plantations or non-forest uses
- wood from forests in which genetically modified trees are planted

Please keep an eye out for them. They will be labelled with the "FSC" symbol in this year's catalogue.

For more detailed information on the FSC, please visit www.fsc.org.

Tablecovers

If you want to create an excellent atmosphere for your eating experience, the best way is to choose the right tablecover. Whether it's for the dining room or the poolside, you can be sure you're striking the right tone. You'll find no better quality and design than Dunicel® and Dunisilk®+. And in addition, there is nothing that will match so perfectly with the rest of the Duni assortment. Regardless of the event – indoor or outdoor, formal or informal – Duni has a perfect tablecover solution. And you benefit from 3 in 1 multitasking: the tablecovers can be table-runners, placemats or 3 in 1. So let your creativity flow!

Dunicel®

Dunicel® is a unique tissue-based material. Because of the heavy weight of Dunicel® the material is ideal for table covering. Dunicel® comes along as slipcover, tablecover, table runner and placemat. Our latest innovation made of Dunicel® is the 3 in 1. Decorative prints and the heavy weight make them really linen-like.

Dunisilk®+

Dunisilk®+ is an enhancement of our Dunisilk material. The new Dunisilk®+ tablecloths are made of a unique base material that is almost twice as thick as the previous material. This allows an even nicer and textile-like draping. Dunisilk®+ tablecloths have a surface coating so they can be wiped clean. They offer an excellent value for money because they can be used again and again. Dunisilk®+ is also an excellent outdoor solution.

MG-Paper

Duni paper based tablecovers are an excellent choice for large gatherings when practicality, convenience and economy play the main role. The quality is superior and they come in many dyed through colours.

Page 70

Coaster

The Duni Coasters are great protection for any sensitive tabletop and above all, they match all our design concepts. There are both tissue and paper based varieties.

Kids' Party

Whether the party theme is based on an occasion – such as for holidays or end-of-season sports celebrations – or a birthday party, the decision will largely be up to the child. Duni offers an exciting assortment of theme-related party accessories that every boy or girl will love, with fun ideas for invitations, decorations and activities. Some are our own unique designs and some are very well known licenses, such as 'Batman, the brave and the bold'.

According to research we conducted in several European countries, parents want to buy a complete party package for their children's party, not only 1 or 2 products. This collection helps you plan the perfect party or birthday party for kids, and will even help find entertainers and locations.

Tabletop

If it's on top of the table, it will get noticed – especially by kids. These decorations can really make a party for kids.

Duni offers a whole range of candle types and qualities along with perfectly matching accessories such as candle holders. Whether you choose from our high quality stearin or wax candles, your warm, romantic atmosphere will be guaranteed.

Duni Candle School

Candles are ideal creators of atmosphere, but they also demand respect. Have a look at the symbols to learn the basics on how to “handle a candle”.

Do not place candles in a draught.

Never leave burning candles unattended.

Distance between burning candles should be 10 cm.

Keep your candles well out of reach of children and pets.

Taper Candles

The Taper candles are made of 100% stearine and come in 10 different colours.

Stearin Candles

Duni Stearin candles come from organic sources (including palm oil) and are considered very friendly to the environment. A few benefits of stearin are that it stays firm when it is lit so it won't lose its shape, it burns brightly and has a pleasant, characteristic scent.
